

Visit to Karnataka State Pollution Control Board for discussion on developing three projects

The team from Dayananda Sagar University attended the meeting at Karnataka State Pollution Control Board for discussion on developing three projects on 19/02/2025,

1. Hitech Push Cart for Vegetable and Fruit Vendors and develop an App for them. (Like Zepto)
2. Waste water reusage in Bangalore focusing Construction Industry. (Also develop and End to end app to be developed for the same)
3. Construction and Demolition waste management App to be developed

All these projects will be funded by Ramki Group Hyderabad, once developed all these apps will be purchased by Ramki Group (Same group maintains the waste management of entire Tamilnadu). The three projects focus on leveraging technology to address critical environmental and urban challenges, particularly in waste management, water reuse, and supporting small-scale vendors. (Sustainable Goals can be met which can be highlighted in NAAC, NBA and NITF).

The faculty invited for the meeting and lead this initiative are

1. Prof Shyamantha Suryaprakash Deputy Director Student Affairs – (SPOC of DSU for this Initiative)
2. Dr Pramod Kumar Naik, Associate Professor and Chairman Department of AIR
3. Dr Bahubali Professor Department of AI and ML
4. Dr George Fernandez, Associate Professor Department of CSE
5. Dr Arun Gopu, Associate Professor Department of CSE.
