

Dayananda Sagar University

18/10/2018

Dear Sir/Madam,

NASA Space Apps Challenge 2018 Hackathon at Dayananda Sagar University

20th-21st October 2018

Invitation to School and college students

No entry fee

Spot registration starts at 8.00am on 20th Oct 2018

NASA's annual international hackathon competitions held in about 200 cities around the world is coming to Bengaluru. Coders, scientists, designers, storytellers, makers, builders, technologists and everyone enthusiastic, curious and innovative come together to address challenges faced on Earth and in Space!

NASA has listed 25 challenges from 6 categories for teams of individuals, to work on. The best 2 teams would be selected to participate in the Global Competition Round and winners invited to visit the **Kennedy Space Center at USA** to watch a live launch. Also innovative solutions will be supported to develop a product for a startup by NASA.

Top 20 teams would also be invited to set up their enterprises based on the ideas presented at the competitions at the Bengaluru event; transforming them into commercial solutions at the DSU Startup Village and the **Atal Innovation Centre (AIC)** at the DSU Campus.

In Bengaluru the event is scheduled on 20th and 21st of October 2018 at Dayananda Sagar University, Kudlu Gate Campus on Hosur Road, Bengaluru.

We invite you to be a part of this exciting hackathon as we pair NASA's data with problem solvers across the globe.

Join us on October 20-21 for the 2018 International Space Apps Challenge, to witness solutions to challenges that better understand Earth and Space!

More details are available at <http://2018.spaceappschallenge.org>
